**Report from the Board of Directors to the General Shareholders Meeting, pursuant
to Article 460(5) of the Portuguese Companies Code**

REASONING OF THE PROPOSAL

Under the terms and for the purposes of number 5 of Article 460 of the Portuguese Companies Code, the Board of Directors of the Sociedade Comercial Orey Antunes, S.A. (the “**Company**”) hereby submits, in writing, the reasoning of its resolution proposal for limitation of the pre-emptive rights in relation to the proposed increase of share capital.

The Board of Directors has considered, taking into account the national and international economic environment, which is currently known to be particularly complex and delicate, submitting to review and approval of this Annual General Shareholders’ Meeting a set of proposals which are part of a process to reinforce the response mechanisms to eventual needs of strengthening of the Company’s own funds.

In this context, and despite its contingent nature, it is prudent to be open to the possibility to tap onto other means of raising of funds which are widely used at an international level.

Therefore, one of the proposals consists on the suppression of pre-emptive rights of the shareholders in case of a share capital increase, based on grounds related to the company interest which indubitably justify and advise its adoption.

In the event that the Company requires a reinforcement of its own funds, it should be prepared for the case of a possible opportunity to promote the placement of one or more issues of new shares with one or more qualified investors in the international markets.

The reasoning leading to the proposal, in the event of the exclusion of their pre-emptive rights, of this specific form of financing, is mostly related to the high instability and vulnerability of the current situation of the financial markets, which is likely to linger on the near future. In this case, the fact that an entity may or may not be ready to benefit and immediately take advantage of a potential availability from qualified investors to invest may not be compatible with the timing, the delay, the complexity and, especially, the uncertainty associated with traditional rights issuance processes, may prove to be decisive.

The fact that the Company may be in conditions of (i) having its management body empowered to decide share capital increases in cash and (ii) doing so by an immediate placement, addressed to qualified investors, may prove to an absolutely decisive advantage of corporate interest in a framework of shortage of resources and investment opportunities, in which there is a need to maximise the fund raising conditions in the context of international competition for funding.

In fact, it should be noted that relevant international financial institutions, in a difficult scenario, were capable of reinforcing their equity during particularly adverse periods precisely by their proved capacity to quickly answer to specific opportunities with selected qualified investors.

Secondly, it should be taken into consideration that the reinforcement of the Company's own funds may require the use of funds which, regarding the situation and dimension of the Company's shareholding structure, may require a broader investor base.

Finally, it should be emphasized that the broadening of the Company's shareholding structure is an element potentially contributing for the reinforcement of its strength and independence, which corresponds to the corporate interests, both in the perspective of geographic dispersion as well as that of investors diversification, thus creating and reinforcing additional market capable of increasing the liquidity of the securities and creating an extended source for future funding needs.

ALLOCATION OF NEW SHARES

The shares that may be issued will be offered to subscription by an entity or entities that comprise all requirements of qualified investors as set forth in the Portuguese Securities Code, and that show interest in acquiring a stake in the Company's equity, entity(ies) that are to be selected by the Board of Directors, with the favorable opinion of the Fiscal Board, if it is considered that the placement is possible and convenient for the strengthening of the company's own funds.

That all shares so to be issued shall be paid-up in full at the time of subscription and, therefore, there will not be any deferral of the payment of the subscription price.

ISSUE PRICE AND DETERMINATION CRITERIA

The issuance price of the new shares will be determined according to the relevant market conditions at the time of the issuance, which shall not be less than 75% of weighted average price of the closing market prices of the company's shares in Eurolist by

Euronext Lisbon, managed by Euronext Lisbon – Sociedade Gestora de Mercados Regulamentados, S.A., during the 20 sessions immediately prior to the date of the resolution approving the share capital increase.

- f) Considering the exclusion of preemptive right of the shareholders, resolved within the scope of item 8 of the agenda, in the event of a capital increase to be resolved by the Board of Directors, in one or more occasions by the Board of Directors under Article 8 of the Articles of Association;

- g) Taking into consideration the terms of the report of the Board of Directors set forth under Article 460(5) of the Portuguese Companies Code, disclosed to the shareholders in accordance with the law;

It is hereby proposed that the General Shareholders Meeting resolve:

1. 2. That all of the shares which comprise the potential issue or issuances are fully paid-up upon subscription.

Resolve on the issue of bonds and other securities of any nature by the Board of Directors and, notably, on fixing their value, pursuant to Article 8(5) of the Articles of Association.
